

11. Department of Medical Entomology

- 1) Ejiri, H., Lim, C.K., Isawa, H., Fujita, R., Murota, K., Sato, T., Kobayashi, D., Kan, M., Hattori, M., Kimura, T., Yamaguchi, Y., Takayama-Ito, M., Horiya, M., Posadas-Herrera, G., Minami, S., Kuwata, R., Shimoda, H., Maeda, K., Katayama, Y., Mizutani, T., Saijo, M., Kaku, K., Shinomiya, H. and Sawabe, K. Characterization of a novel thogotovirus isolated from *Amblyomma testudinarium* ticks in Ehime, Japan: A significant phylogenetic relationship to Bourbon virus. *Virus Research*, 249: 57-65, 2018.
- 2) Kobayashi, D., Murota, K., Fujita, R., Itokawa, K., Kotaki, A., Moi, M.L., Ejiri, H., Maekawa, Y., Ogawa, K., Tsuda, Y., Sasaki, T., Kobayashi, M., Takasaki, T., Isawa, H. and Sawabe, K. Dengue virus infection in *Aedes albopictus* during the 2014 Autochthonous dengue outbreak in Tokyo Metropolis, Japan. *The American Journal of Tropical Medicine and Hygiene*, 98: 1460-1468, 2018.
- 3) Fujita, R., Kato, F., Kobayashi, D., Murota, K., Takasaki, T., Tajima, S., Lim, C.K., Saijo, M., Isawa, H. and Sawabe, K. Persistent viruses in mosquito cultured cell line suppress multiplication of flaviviruses. *Heliyon*, 4: e00736, 2018.
- 4) Smith, L.B., Kasai, S. and Scott, J.G. Voltage-sensitive sodium channel mutations S989P+V1016G in *Aedes aegypti* confer variable resistance to pyrethroids, DDT and oxadiazines. *Pest Management Science*, 74: 737-745, 2018.
- 5) Smith, L.B., Tyagi, R., Kasai, S. and Scott, J.G. CYP-mediated permethrin resistance in *Aedes aegypti* and evidence for trans-regulation. *PLoS Neglected Tropical Diseases*, 12: e0006933, 2018.
- 6) Kasai, S., Caputo, B. Tsunoda, T., Cuong, T.C., Maekawa, Y., Lam-Phua, S.G., Pichler, V., Itokawa, K., Murota, K., Komagata, O., Yoshida, C., Chung, H.H., Bellini, R., Tsuda, Y., Teng, H.J., de Lima Filho, J.L., Alves, L.C., Ng, L.C., Minakawa, N., Yen, N.T., Phong, T.V., Sawabe, K. and Tomita, T. First detection of a *Vssc* mutation V1016G conferring a high level of insecticide resistance in *Aedes albopictus* collected from Europe (Italy) and Asia (Vietnam), 2016: a new emerging threat to controlling arboviral diseases. *Eurosurveillance*, 24: 1700847, 2019.
- 7) Pichler, V., Malandrucolo, C., Serini, P., Bellini, R., Severini, F., Toma, L., Luca, M.D., Montarsi, F., Ballardini, M. Manica, M., Petrarca, V., Vontas, J., Kasai, S., della Torre, A. and Caputo, B. Phenotypic and genotypic pyrethroid resistance of *Aedes albopictus*, with focus on Italian sites experiencing a chikungunya outbreak in 2017. *Pest Management Science*, (accepted)
- 8) Hayashi, T. Taxonomy and distribution of the genus *Philocoprella* Richards (Diptera: Sphaeroceridae) from the Oriental and Australasian regions. *Japanese Journal of Systematic Entomology*, 24: 230-233, 2018.
- 9) Kim, K.S. and Tsuda, Y. Gynandromorph of *Culex inatomii* (Diptera: Culicidae) collected at Yonago Waterbirds Sanctuary, Tottori, Japan. *Medical Entomology and Zoology*. 69. 35-38, 2018.
- 10) Imanishi, N., Higa, Y., Hwa-Jen Teng, Sunahara, T. and Minakawa, N. Identification of three distinct groups of *Anopheles lindesayi* in Japan by morphological and genetic analyses. *Japanese Journal of Infectious Diseases*. 71: 427-435, 2018.
- 11) Matsumura, T., Mashiko, R., Sato, T., Itokawa, K., Maekawa, Y., Ogawa, K., Isawa, H., Yamamoto, A., Mori, S., Horita, A., Ginnaga, A., Miyatsu, Y., Takahashi, M., Taki, H., Hifumi, T., Sawabe, K. and Ato, M. Venom and antivenom of the redback spider (*Latrodectus hasseltii*) in Japan. Part I. Venom extraction, preparation, and laboratory testing. *Japanese Journal of Infectious Diseases*, 71: 116-121, 2018.
- 12) Yamamoto, A., Harano, S., Shinya, N., Nagano, A., Miyatsu, Y., Sawabe, K., Matsumura, T., Ato, M., Takahashi, M., Taki, H. and Hifumi, T. Freeze-dried equine-derived redback spider antivenom: a local irritation study by intramuscular injection in rabbits and a repeated-dose toxicity study in rats. *Journal of Toxicol Pathology*, 31: 105-112, 2018.
